Assessment:

Examined Units

- 1 Fundamentals of IT,
- 2 Global Information
- 3 Data analysis and design.

Internally Assessed units

- 4.Internet of Everything
- 5.Social media and digital marketing

Summary

This is a Level 3 Cambridge Technical Introductory Diploma in Information Technology.

You will be able to develop the core knowledge, skills and understanding required in the IT sector, and develop further skills by completing a range of units within the **Data Analyst pathway**.

Typical job roles within this pathway include; Junior Data Analyst, Junior Data Quality Analyst or Junior Big Data Architect.

You will have the opportunity to find out from employers how the skills and knowledge you acquire are used in the working environment.

Looking Ahead

This qualification is not just about being able to use computers. Employers need people who are able to help them develop their systems or the systems for their customers, use IT as a tool to analyse data and develop applications.

This qualification is designed to give learners a range of specialist knowledge and transferable skills in the context of applied IT, providing them with the opportunity to enter an apprenticeship, move directly into employment, or progress to a related Higher Education course

Link Subjects

Information Technology compliments subjects including English, Mathematics and Business

Key Skills Developed

- ⇒ Analytical Thinking
- ⇒ Literacy
- ⇒ Design for purpose

Student View

"Studying IT gave me a good insight into how IT is used in the world of work".
